31 LETTER BOOKS OF MAJOR GENERAL WILLIAM MEDOWS (1738-1813); 'COMMANDER IN CHIEF OF HIS MAJESTY'S AND THE HONOURABLE COMPANY'S FORCES ON THE COAST OF MALABAR', CONTAINING COPIES OF LETTERS, IN UNIDENTIFIED HANDS, SENT BY AND TO MEDOWS, BETWEEN FEBRUARY 1789 AND JULY 1795.

These notebooks and letters contain topographical information about the location and dimensions of a historically significant early fort constructed in the time of the East India Company, the fort of Tellicherry in Kerala. The letter books document repairs made in 1786 to the buildings and fortifications following the relief of the Siege of Tellicherry (which had been attacked by Tipu Sultan). The East India Company, allied with sections of local Hindu society (in particular the Nairs and Teers), went on to resist further attacks by Pazhassi Rajah in 1805. The settlement of Tellicherry was of great cultural significance as a centre for learning, including highly advanced mathematical and astronomical scholarship - sometimes known as the Kerala School - predating European work on calculus by some two centuries, and including very early work on infinite series. The fortifications described in these notebooks protected the temple that housed many precious texts on these subjects. References to the 'brass pagoda' in the Christ's letterbook are to the temple that housed these texts, and which were sacred to the Hindu culture of the area. The mathematical and astronomical learning of the Hindus was interpreted and communicated back in England by

the civil servant C. M. Whish, assisted by Thomas Baber (both of the East India Company), but was not warmly received in Oxford.

Unbound, imperfect volume. 47 x 28 cm.

53 THREE BOXES OF LETTERS FROM CHARLES ROBERT DARWIN TO HIS COUSIN, WILLIAM DARWIN FOX. 1828-78 (i-iii), PLUS EARLY PHOTOGRAPH (1854) AND CHEQUE, 1872 (iv)

i-iii. For details of this correspondence, see the separate Calendar of the letters. Photocopies of the letters are available for study. For details of the terms on which the letters were given to Christ's College Library, see the photocopies of the documents and correspondence connected with the donation . See also the letters from Francis Darwin to Fox and to A.E. Shipley concerning the Darwin letters. Given by William Darwin Fox, grandson of W.D. Fox. Ownership and copyright granted to Master and Fellows of Christ’s College, 23 June 1909 by George Howard Darwin, William Erasmus Darwin, and Francis Darwin.

iv. This comprises a slip case containing photo of Charles Darwin, ca. 1854, and a cheque written by Charles Darwin, 21 March 1872. Notes: A framed photograph of Charles Darwin (1809-1882) hangs on the end of bookcase O/Q in the Old Library. Also inside the frame, just below the photograph, a small rectangular opening in the mount displays the signature 'Ch. Darwin'. Darwin presented the photograph to F.D. Dyster, of Tenby. Dyster’s nephew, the geographer and travel writer Francis Henry Hill Guillemard (1852-1933), then bequeathed it to the College in 1934. The photograph was probably taken about 1854 and given by Charles Darwin to F.D. Dyster, Esq., the microscopist (A.E. Shipley, *The portraits, prints and writings of Charles Robert Darwin. Exhibited at Christ's College*, Cambridge, 1909). In 2009, on opening the frame, which had presumably been sealed since 1909, a conservator found the Darwin signature to be the endorsement on the back of a cheque. The entire cheque had been carefully folded and preserved so that just the signature on the back could be seen through the mount. The cheque is from the Union Bank of London, made out by Darwin 'to self' for 100 pounds on 21 March 1872. On the reverse, it is signed: 'Ch. Darwin', this being the signature visible under the framed photograph. The cheque is stamped: 'Paid Mar. 22'. A hole in the centre probably indicates Darwin put the cheque on his spits. Guillemard signed the exhibition guest book at Christ's College with Francis Darwin on 11 June 1909. Perhaps Francis Darwin offered the cheque from his father's papers as an example of his signature. Darwin's papers had now become so precious that the cheque was preserved, and the signature not just cut out.

269 CHARLES EARLE RAVEN

13 Boxes of papers relating to his career, his work as a theologian, his family and friends.
Material donated by and collected from Mrs Faith Raven, Docwra's Manor, Shepreth, March 2019.
The college library holds 18 books authored by Raven, as well as the biography authored by F W Dillistone, *Charles Raven Naturalist, Historian, Theologian.*
Charles Earle Raven (4 July 1885—8 July 1964) was an English theologian, Regius Professor of Divinity at Cambridge University, and Master of Christ's College, Cambridge (1939-1950). His works have been influential in the history of science publishing on the positive effects that theology has had upon modern science. As a pacifist, he was an active supporter of the Peace Pledge Union and the Fellowship of Reconciliation. Charles Raven was the father of John Raven, the classical scholar and botanist, and grandfather of Andrew Raven and Sarah Raven. The college portrait (cc00201) shows him in the scarlet cassock of a royal chaplain, which Raven became in 1920. The badge of the royal chaplain is visible on the black scarf at his left. The portrait was commissioned "in recognition of his holding the Office of Vice-Chancellor, and that at a time of significance for the college and University alike". He was Vice-Chancellor from 1947-1949. He retired as Master in 1950. The letters he wrote from the Front during World War I are archived in box 218 and were edited and published by John Lipscomb. This book is held in the college library.

271 MUSICAL COMPOSITIONS BY WALTER LEIGH (1905-42) AND THE REV. WALTER LEIGH (1826-91)

This material was donated by the son of Walter Leigh (1905-42), Mr Andrew Leigh, on 5 August 2019. Both he and his father were/are alumni of Christ's College (matriculated 1923 and 1959 respectively). Most of the music manuscripts of Walter Leigh (1905-42) are at the British Library.

1. Information from Andrew Leigh about the donated materials.

2. Two photocopies of manuscripts of Walter Leigh's song "Now the bright morning star" (text by John Milton). Item 2a is a working manuscript, with crossings out. Following the end of the composition is a further page that appears to be a working-out of musical ideas for this same piece. It is in three voices, but without text. Item 2b is a fair copy manuscript, with just a few textual crossings-out. Its first page is signed "W.L. 1927". Pencil pagination added by John Wagstaff (College Librarian, August 2019)

3. Photocopy of manuscript of the song "On May morning", for soprano, violin and cello. Some crossings out, otherwise a fair-copy manuscript. Signed "Walter Leigh Aug 1928" on its front page. Final page has been trimmed, so is narrower than the others. Pencil pagination added by John Wagstaff (College Librarian, August 2019)

4. Photocopy of manuscript the song "Lenten ys come with love", presumably by Walter Leigh (but not signed). In 4 vocal parts (SATB), using treble, alto, tenor and bass clefs (perhaps as an exercise in using these clefs(?), although "Now the bright morning star" also uses treble, alto and tenor clefs). Bass clef is erroneously shown as F3 rather than F4. The song breaks off on p. 4, after the phrase "Notes suete of nyhtegales". Pencil pagination added by John Wagstaff (College Librarian, August 2019)

The donor, Andrew Leigh, mentioned when donating the materials that Leigh was fond of writing pieces around May morning time; perhaps the settings of "Lenten ys come with love" and "On May morning" were inspired by this.

5a and b *"Jolly Roger": A comic opera by V. C. Clinton Baddeley & Serbie Macenzie. Music by Walter Leigh 1932*. 2-volume full score, formerly in the possession of Boosey & Hawkes music publishers and clearly used in performance (includes cues, and insertions in red, blue and grey pencil).

6. *Paradise (Lost and regained), or The fall and redemption: an oratorio* by Walter Leigh (1826-91). One of 300 copies printed by Novello but paid for by subscription (a list of subscribers is to be found after the title page). The score includes manuscript additions, presumably made by the composer, and originally bound into this copy, which was sent for conservation to the Cambridge Colleges' Conservation Consortium in August 2019.

Hailstone was the son of the Reverend John Hailstone, Vicar of Bottisham, who bought and restored Anglesey Abbey, and Edward grew up there. Edward Hailstone worked as a private tutor and pursued antiquarian interests, as a member of the Cambridge Antiquarian Society and a Fellow of the Royal Historical Society. From 1877, he lived in Paris (a nineteenth century map of Paris is included in this collection). The 7 notebooks cover the years c. 1900-1916, describing summer trips and day-to-day domestic matters. There are also a selection of art postcards (mostly unmarked and not written on or sent), a printed lecture on Shakespeare's historical plays by J. C. Powys, and an 1863 exam paper set by Trinity College Cambridge on Shakespeare's plays. A short note on these items by the Archivist Lucy Hughes appeared in the Powys Society Newsletter no. 117, a copy of which is kept here. A subsequent issue of the Powys Society Newsletter (not relating directly to Christ's College or its members) is included: this is no. 118 (July 2026).
