

UK legislation allows us to charge higher ('Overseas') tuition fees to students if they do not qualify for "home" fee status through meeting certain residence and immigration status requirements. Please note that your fee status is linked to (though not the same as) your eligibility for government-sponsored student financial support. Confirmation of a student loan or grant does not in itself provide sufficient evidence for us to determine your fee status, and not all students who are eligible for the lower 'Home' fee will be eligible for student financial support.
