

Test of Mathematics for University Admission (TMUA) Explanation of Results

Results for TMUA are reported on a scale that runs from 1 (low) to 9 (high), with scores being reported to one decimal place.

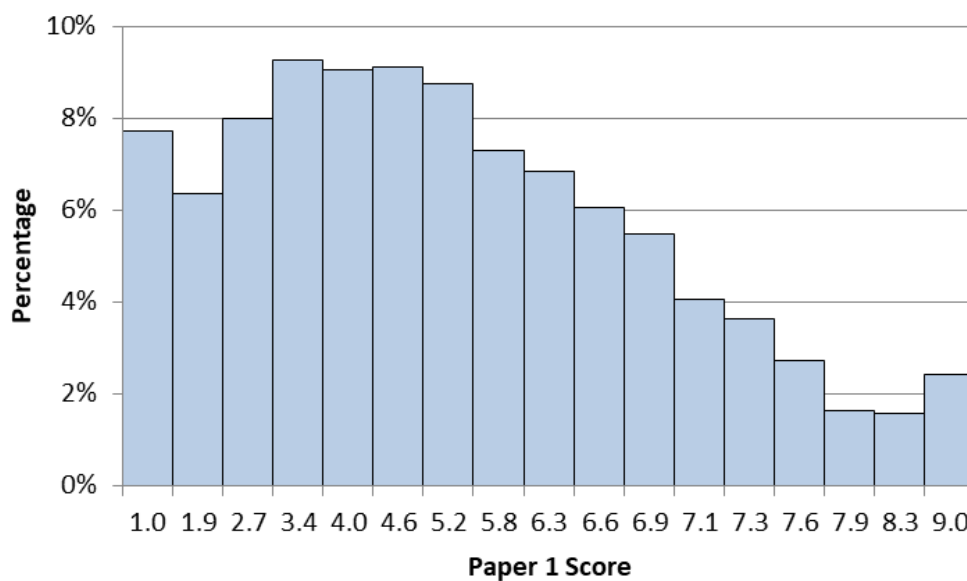

The scale has been designed so that approximately one third of candidates will achieve overall scores higher than 6.5. High scores are capped at 9.0.

The distribution of the 2023 TMUA scores, overall and for Papers 1 and 2 are shown below.

Overall score distribution

Paper 1 score distribution

Paper 2 score distribution
